GIZ	Mr. Dadang Kurnia, Advisor (observer)

Southeast Asian DAAD Alumni's Common Cause: Promoting Southeast Asia

Since its establishment in 1925, DAAD has provided funding to more than 1.9 million scholars both in Germany and overseas. The provision has been not only limited to grants and scholarship but also other activities including German Higher Education Institutes internationalization, German studies and language promotion, as well as facilitation to developing countries' higher education development and policy advisory on culture, education, and development issues.

Until 2013, there have been more than 8,000 DAAD scholars originally from Asia-Pacific with 4,000 German scholars who have Asia-Pacific as their destination.

Regional Collaboration and Networks

Along with DAAD's Motto, "Change by Exchange" and its mandate, DAAD in collaboration with the Southeast Asian Ministers of Education Organization (SEAMEO) will organize a "SEAMEO-DAAD Lecture Series" to optimize the expertise of DAAD alumni in the interest of contributing to education development in the Southeast Asia region.

The SEAMEO-DAAD Lecture Series aims at strengthening the network of DAAD alumni located in the Southeast Asian countries, and promoting their social responsibility by providing an opportunity for them to voluntarily contribute their knowledge and expertise through an on-line platform for upgrading/enhancing knowledge of students and teachers at Technical & Vocational Institutes and Higher Education Institutions.

Topics for Presentations during Pilot Phase (work in progress!)

Dr. phil. Puong Minh Luong, Vietnam	: “Intercultural competence in the light of ASEAN labour market integration”
Dr. Goh Hong Ching, Malaysia	: “The impact of urbanization in Malaysia”
Dr. Mario R. Delos Reyes, Philippines	: “Building sustainable and disaster resilient communities”
Dr. Agus Maryono, Indonesia	: “Sustainable and environmental friendly water resources management”
Dr. Lim Kok Hwa, Singapore	: “Green chemistry for environmental sustainability”
Dr. Gelgel Wiranto, Indonesia	: “Analytical toxicology, drug abuse among teenagers”
Dr. Ayu Dewi, Indonesia	: “Molecular biology. The basic concept”

What makes the SEAMEO-DAAD Lecture Series special?

- We can reach a wide audience (ASEAN-wide) and contribute to dynamic development in learning
- We teach free of charge
- We teach in English
- Growth potential, given the online-based teaching techniques and the many DAAD alumni in the region
- Inclusive approach towards capacity building
- We cover all academic subjects
- People-to-people knowledge exchange which can grow into institutional collaboration
- Regional contextualization of internationally relevant content
- We show the diversity and the different best practice examples within Southeast Asia
- We gain common understanding
- A bottom-up initiative of professors, teachers, students – a non-institution driven initiative

MISSION & VISION OF THE SEAMEO-DAAD LECTURE SERIES

Vision:

Regional-wide capacity building by highly qualified international academics based in Southeast Asia

Mission:

to give lectures that are relevant in terms of subject matter and target group, and that also support the Southeast Asian education communities in their attempt to jointly address capacity needs

Guiding Principle:

to grant Southeast Asian teachers and students insight into and access to quality information

OBJECTIVES

The SEAMEO-DAAD Lecture Series aims to:

- empower technical and vocational institutions and higher education institutions in Southeast Asia through providing education and facilitating information exchange, utilizing latest information and communication technology
- prepare and establish collaborative networks to promote students and teachers in Southeast Asia by providing highly technical knowledge and skills in scientific and technological areas, as well as necessary management knowledge and professional skills that foster employability and entrepreneurship
- strengthen the DAAD scientists' networking in Southeast Asia through online-based activities and joint efforts towards problem-solving in the Southeast Asian Region
