

## Country-Level Workshop in Brunei Darussalam on SEA-TVET Harmonisation and Mobility

*Back to back with the SEAMEO VOCTECH International Conference on  
Ensuring Greater Impact of TVET for Sustainable Development*

1-2 June 2016 | International Convention Centre Berakas Brunei Darussalam

### Concept Paper and Programme

#### 1. Rationale and Background

Technical and Vocational Education and Training (TVET) has been identified as a priority area in the Southeast Asian region. This development came from the consultations held in 2012 initiated by the SEAMEO and the ADB (Asian Development Bank) under the SEAMEO College Project. After two years, the Southeast Asian Education Ministers affirmed the importance of TVET by naming it as one of the Post-2015 seven priority areas of SEAMEO in September 2014 during the Strategic Dialogue of Education Ministers (SDEM).

As the form of education that responds to poverty reduction, economic recovery and sustainable development, TVET has received greater attention from policy makers, particularly in the quest for economic integration into ASEAN at the year-end of 2015.

In the context of ASEAN integration; the perceived mobility of skilled workers in the region; and the needs to improve the quality of TVET in Southeast Asia, SEAMEO - with funding from the Office of the Vocational Education Commission, an agency within the Ministry of Education, Thailand- organised the **1<sup>st</sup> High Officials Meeting (HOM) on SEA-TVET**. This was held under the theme: *“Working Together towards Harmonisation and Internationalisation of TVET in Southeast Asia”*. The event took place on 24-26 August 2015 in Chiang Mai, Thailand. As a result, the **“Chiang Mai Joint Statement on Harmonisation and Internationalisation of TVET in Southeast Asia”**, including 4 priority industry areas were officially announced as the regional policy directions that emerged from the TVET High Officials Round Table Meeting. Details of the Chiang Mai Joint Statement are in **Appendix I**.

Following on from the HOM on SEA-TVET, the **SEA TVET–DAAD Workshop on “Internationalisation and Harmonisation of TVET in Southeast Asia”** was hosted by the Ministry of Education and Culture (Republic of Indonesia) and the German Academic Exchange Service (DAAD) on 10-12 September 2015 in Solo, Indonesia. The workshop aimed to further develop regional strategies according to the Chiang Mai Joint Statement and expand collaboration on internationalisation and harmonisation by identifying practical mechanisms and comprehensive action plans among the priority industrial sectors.

Building on from these two events, the **seven Country-Level Workshops on SEA-TVET Harmonisation and Mobility** are planned to be conducted over two-three days in each of the seven countries to collate the results from the previous TVET regional meetings, and develop partnership and commitment among the participating TVET institutions which will lead towards harmonisation and internationalisation.

With the support from the host countries, the seven Country-Level Workshops has been place in Cambodia (9-10 October 2015), Thailand (26-28 November 2015), Myanmar (4-5 December 2015), Lao PDR (22-23 December 2015), Malaysia (1-3 March 2016), Philippines (3-4 May 2016) and to take place in Brunei Darussalam (1-2 June 2016). **Appendix II** provides the schedule and priority industry/study areas as identified by the host countries.

The workshops at country level will serve as a platform for establishing partnership and networking among the participating TVET institutions from the host country and other Southeast Asian countries.

The workshops also aim to explore collaborative mechanisms, action plans and commitments for piloting student and teacher exchanges and other joint activities as well as discuss on continuous communication and networking among involved parties.

These country-based workshops are expected to advance TVET harmonisation and mobility across Southeast Asia and beyond.

## **2. The Country-Level Workshop on SEA-TVET Harmonisation and Mobility in Brunei Darussalam**

As a part of the country-level workshop series in seven countries, the Country-Level Workshop on SEA-TVET Harmonisation and Mobility in Brunei Darussalam is organised by SEAMEO VOCTECH and Institute of Brunei Technical Education (IBTE) and co-organised by SEAMEO Secretariat, SEAMEO SEAMOLEC and ADB on **1-2 June 2016 at International Convention Centre Berakas Brunei Darussalam**, back to back with the International Conference on Ensuring Greater Impact of TVET for Sustainable Development.

The workshop session among the participants from the SEA-TVET Programme and SEAMEO Polytechnic Network will be organised during the concurrent sessions of the conference on day 1 and 2. The participants of the SEA-TVET Programme and SEAMEO Polytechnic Network are invited to participate in all plenary sessions of the SEAMEO VOCTECH International Conference.

## **3. Objectives**

- a) To inform on the result of the SEAMEO high-level meetings on TVET which will include:
  - a1) exploration of existing mutual recognition/harmonisation agreements and/or the potential for harmonisation of TVET in Southeast Asia;
  - a2) analysis of TVET national programs, institutions and frameworks in Southeast Asia; and
  - a3) issues and challenges on TVET, and others.
- b) To identify specific actions and plans related to pilot student and teacher exchanges, cross-country student internship placement, and other collaborative activities among the TVET institutions.
- c) To establish networking platform among Technical and Vocational School, Polytechnics, Community Colleges, Vocational and Technical Colleges, and TVET institutions.
- d) To provide capacity building support to TVET officials and TVET institutions.

## **4. Host Organiser and Partners**

**Host Organisation:** SEAMEO VOCTECH Regional Centre and Institute of Brunei Technical Education (IBTE), Ministry of Education Brunei Darussalam.

**Regional Coordinators:**

- Southeast Asian Ministers of Education Organization Secretariat (SEAMEO Secretariat)
- SEAMEO Regional Open Learning Centre (SEAMEO SEAMOLEC), Indonesia

**Partners:** Asian Development Bank

## **5. Venue and Schedule:**

- a) Date: 1-2 June 2016
- b) International Convention Centre , Berakas  
Breakout Session for the Concurrent Session 5: Sepakat Room

## 6. Priority Study/Industry Areas for the Country-level Workshop

According to the “Chiang Mai Joint Statement on Harmonisation and Internationalisation of TVET in Southeast Asia”, announced at the HOM on SEA-TVET on 26 August 2015, Hospitality and Tourism is the first priority industry sector as a pilot for implementing regional harmonisation. Other priority industry sectors such as 1) Electronics, Mechatronics and Manufacturing; 2) Agriculture and Fishery; and 3) Construction will be implemented in the later stage (Chiang Mai Joint Statement, 2015).

For the Country-Level Workshop in Brunei, SEAMEO VOCTECH and IBTE have identified the following 3 priority industry/study programmes as the areas for collaborations with other TVET institutions/polytechnics in Southeast Asian countries:

- 1) Hospitality and Tourism
- 2) Agriculture and Fisheries
- 3) Commerce

Since the establishment of partnership of the SEAMEO Polytechnic Network will be included in the workshop discussion, the priority study areas of the SEAMEO Polytechnic Network include as follows:

- 1) Hospitality and Tourism
- 2) Agriculture and Fisheries
- 3) Electronics, Mechatronics and Manufacturing
- 4) Construction

## 7. Participants

The Country-Level Workshop expects to be participated by:

- a) TVET policy makers and experts from host organiser, and related government agencies from Southeast Asian countries.
- b) Directors/representatives of Technical and Vocational Schools, Community Colleges, Vocational and Technical Colleges, Polytechnics, and TVET Institutions from Brunei Darussalam and other Southeast Asian countries
- c) Resource persons from SEAMEO Regional Centres and other development agencies.

## **SEA TVET**

### **Chiang Mai Joint Statement**

#### **on Harmonisation and Internationalisation of TVET in Southeast Asia**

#### **PREAMBLE**

1 We, high-level education officials responsible for technical and vocational education and training (TVET) and representing eight SEAMEO Member Countries (Brunei Darussalam, Cambodia, Indonesia, Lao PDR, Malaysia, Myanmar, Philippines, and Thailand) met in a High Officials Round Table Meeting in Chiang Mai, Thailand on 25 August 2015 to determine policy directions of TVET development and collaboration in Southeast Asia, and identify strategic framework and priority areas of development especially on prospects of harmonisation and internationalisation of TVET.

2 The First High Officials Round Table Meeting on TVET in Southeast Asia is in pursuit of the directive of the education ministers of Southeast Asian countries that comprise the SEAMEO Council during the SEAMEO Strategic Dialogue of Education Ministers held in September 2014 in Vientiane, Lao PDR which identified TVET as one of the seven Post-2015 and Post-Education for All priority areas of SEAMEO.

3 Furthermore, the High Officials Round Table Meeting on TVET in Southeast Asia is in support of recent global and regional declarations on the promotion and enhancement of TVET such as the Third International Congress on TVET which focused on “Quality Education and Skills Development for Sustainable Future” and was held in Shanghai, Peoples Republic of China in May 2012; and the Kuala Lumpur Declaration on “Making Skills Development Work for the Future” held in Kuala Lumpur, Malaysia on 3-5 August 2015.

4 Cognisant of the increasing integration in the world and in Southeast Asia and the efforts of governments to address labour market demand which will help bring about economic growth and social development, the importance of working together towards harmonisation and internationalisation of TVET is key to ensuring greater mobility and competitiveness, not only of single and individual countries of the region, but the entire Southeast Asia as a unified community.

#### **AFFIRMATIONS**

- 5 With the foregoing antecedents, we therefore recognise and affirm the following:
1. That TVET plays a fundamental role in preparing the labour force in Southeast Asia, and that the industry is an important driver of economic growth;
  2. That by synergising efforts of SEAMEO Member Countries on TVET, Southeast Asia can be more ready for ASEAN integration;
  3. That there is a need for continuous and strategic discussion to help direct regional cooperation on TVET in Southeast Asia; and

4. That harmonisation and internationalisation of TVET is vital key to competency development and quality improvement of this sector in Southeast Asia.

## **AREAS AND STRATEGIES FOR COOPERATION**

6 In support of precursor global and regional declarations on TVET and our foregoing affirmations, we therefore agree to the following:

1. Cooperate in the review and share the development of respective TVET national quality assurance and qualifications framework of SEAMEO Member Countries referring to the ASEAN Qualification Reference Framework (AQRF).
2. Establish SEA-TVET consortium as a mechanism for overseas student and staff exchange, which shall include industrial attachment and internship.
3. Agree that Hospitality and Tourism is the first priority industry sector as a pilot for implementing regional harmonisation. Other priority industry sectors such as 1) Electronics, Mechatronics, and Manufacturing; 2) Agriculture and Fishery; and 3) Construction will be implemented in the later stage.
4. Share knowledge, best practices, and resources, including experts, teaching and learning systems and materials, and equipment for enhancing cooperation to improve the quality TVET in Southeast Asia. Online TVET portal will be used as a platform to enhance information sharing. (<http://seatvet.seameo.org>)
5. Carry out TVET occupational mapping by priority industry sector and by geographical area in cooperation with industry and other agencies to narrow the gap between demand and supply for future labour force in the region.
6. Address several components, such as green TVET, technopreneurs, innovative practices in TVET, teacher education and training, and TVET for all as part of harmonisation and internationalisation of TVET initiatives in Southeast Asian region.
7. Mobilise stakeholders in a concerted effort to create strategies and share responsibilities for harmonisation of TVET.

Adopted on 26 August 2015 in Chiang Mai, Thailand  
at High Officials Meeting on Southeast Asia Technical and  
Vocational Education and Training (SEA-TVET)

organised by the Office of Vocational Education Commission,  
Ministry of Education Thailand; SEAMEO, and British Council
