(Refer to the powerpoint presentation as attached)

Mr Steven Rynecki
**Programme Director for Connecting the Mekong through Training
and Education (COMET)**

USAID
US Embassy, Bangkok

Steve Rynecki is a senior international development and program management specialist with two decades of economic growth experience in both the public and private sectors. Over the past decade, he's been leveraging advances in technology to solve complex development challenges worldwide. He regularly engages trade groups, government ministries and program beneficiaries to understand where technology can support USAID development objectives. He's one of the Agency's leading mobile innovation experts, and is recognized for leadership in digital finance and ICT workforce programs.
